Group for Advancement of Psychiatry (GAP)

The Group for the Advancement of Psychiatry is a think tank of leading psychiatric minds whose thoughtful analysis and recommendations serve to influence and advance modern psychiatric theory and practice. GAP is comprised of approximately 200 members from across the US and Canada who meet twice a year and produce content on topical issues in psychiatry.

The GAP Fellowship

The GAP Fellowship is a program for outstanding residents and fellows who are given the unique opportunity to work collaboratively in an informal setting with leaders in psychiatry.

GAP Fellows become members of working committees for four meetings over two years. Fellows contribute to the writing projects of their committees. In addition to their committee responsibilities, the Fellows develop a plenary presentation on a topic of their choice, presented to the general GAP membership at the Fellows' final meeting.

Selection Process

In November 2018, the GAP Fellowship Committee will select Fellows to serve for two years beginning with the Spring 2019 GAP Meeting. The Selection Committee focuses on candidates with:

- demonstrated leadership abilities
- academic excellence
- outstanding writing skills
- innovative perspectives in psychiatry
- commitment to a collaborative group process

Eligible candidates must be at least in the PGY-2 year, and must have at least two years of training remaining at their institution (PGY-2 or PGY-3 residents, or fellows in the first year of a two-year fellowship).
